Apply for **Junior Web/Mobile Developer**

SAEROSOFT INC.

Location: Phnom Penh, Cambodia

Dear Sir/Madam:

I would like to apply for the position of junior web/mobile developer, which you are looking for. I also enclosed my complete application form, together with my photography and curriculum vitae (CV). I graduated in computer science from the Royal University of Phnom Penh, which I completed between 2017 and 2021. Additionally, I finished the 10th basic course of the Software Experts Training Program at the Korea Software HRD Center in 2022. I have two years of professional experience as a web developer at KOSIGN (Cambodia) Investment Co., Ltd. from 2022 to 2024, and I am currently taking short courses on the Spring Framework at ISTAD in 2025.

I am very interested in your job announcement. As required in the job announcement, your company is looking for any qualified and capable individual to fulfill the position. Therefore, I am confident that I have sufficient capability to perform this duty because I am equipped with the skills and knowledge as needed, which is suitable for the position at the moment in the job announcement.

Showing my honesty in work to you, I can say only that my commitment to work is my best feature, and I will try my best to provide my work as well as I am qualified for the job I am applying for. With my experience doing projects since working at the KOSIGN company, HRD Center. I honestly and very much like working as a developer. I also hope that I can work well.

I look forward to hearing any good, fresh information about the job at any time from you. I hope that I am also one of your deep considerations.

Finally, thank you again for your opportunity and for taking the time to read my cover letter and to review my resume.

Sincerely,

Em Boonlin
